DIGITAL PATHOLOGY

DPA
ASSOCIATION

ADVANCING THE FIELD
OF DIGITAL PATHOLOGY

Meet the Digital Pathology Association

The DPA is a nonprofit organization comprised of pathologists, scientists, technologists and industry representatives dedicated to advancing the field of digital pathology. The organization's mission is to facilitate awareness, education and adoption of digital pathology and AI applications in healthcare and life sciences. Members are encouraged to:

Share best practices

Promote the use of the technology among colleagues to demonstrate efficiencies

Share knowledge and benefits for patient care

What We're Doing

Digital pathology is now being recognized as a proven and essential technology, providing additional tools that can provide a faster, higher quality and more accurate diagnoses that are crucial to achieve the class of results demanded by patients and physicians. We are dedicated to:

Enhancing the field of digital pathology

Exploring digital pathology applications, education and best practices

Collaborating with the FDA on equipment approvals

Addressing technology regulations

A Growing Community

Through our globally connected community of thought leaders and members, we remain committed to adding to the accessible knowledge base of digital pathology. The DPA focuses on:

New, influential technologies for pathology practitioners worldwide

Working to bring more awareness to the field

Providing access to informative webinars

Presentations that showcase new technologies, case studies and theories

Providing ways to stay informed, network with professionals, advance knowledge within the industry and contribute to the future of digital pathology

Pathology Visions

Pathology Visions, the Digital Pathology Association's annual conference:

- Delivers education and best practice purveyance
- Influences industry standards and contributes to the advancement in the standards of patient care
- Provides access to expert presenters, knowledge from thought leaders, cutting-edge workshops and the latest product solutions

PATHOLOGY VISIONS

Digital Anatomic Pathology Academy (DAPA)

DAPA is the WSI educational platform provided by pathologists for pathologists. DAPA is:

- A cloud-based platform which provides annotated digital slides with diagnosis
- Accessible from anywhere, on any device, without downloading any software
- Provides relevant information of morphology and ancillary testing
- A platform of slides and information are continually being added and updated
- Available only to DPA members

A DPA membership is FREE to pathology residents, fellows, PhD candidates and medical students
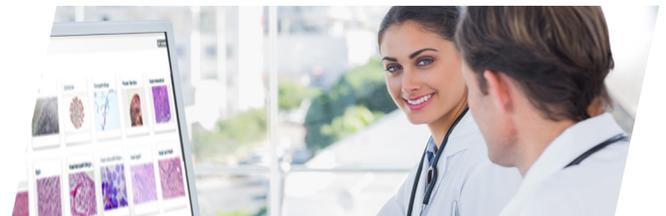

Join. Support. Volunteer.

Members have the opportunity to be a part of a committee that aids in the advancement of digital pathology, working collaboratively to affect change within the industry. This membership network supports relationships to be created and partnerships to be formed.

DPA membership options encompass countless ways to stay informed, network with other professionals, advance your knowledge within the industry and contribute to the future of digital pathology. From individuals to entire medical practices and beyond, there is a membership level to suit every need.
